

BowTieXP Advanced training – discover it's full potential

March 5th 2020 - Sydney, Australia

BowTieXP enables you to easily create bowtie diagrams and in turn visualize your risk assessments. But what do you need to know to get the most out of your license?

In the upcoming training course we go beyond the basic BowTieXP functionality to show you the full potential of your license. From a refresher on barrier management to understanding the key advanced methodology and accompanying features. Amongst others we will discuss lookup tables, filtering and Layer of Protection Analysis (LOPA) with help of BowTieXP. Learn how to create bowties for internal risk management requirements and/or regulators.

Demonstrations, presentations and interactive exercises will be alternated for you to go home fully equipped with the right knowledge and skills to work with BowTieXP like a pro.

Registration

Please sign up via sydneyadmin@sherpaconsulting.com.au.

The participation fee is 800 AUD excl. GST. This includes training materials, a 30-day BowTieXP advanced software trial and lunch/refreshment.

Date & Time

This training will take place on March 5th. The program will start at 09:00h and end around 17:00h. Check out the next page for full schedule.
